

Dr. Vladimir Cvetkovic
Lehrstuhl für Thermoprosesstechnik (580)
Telefon: 5812

Forschungsbereiche

Prof. Dr. Vladimir M. Cvetković wird als führender Experte im Bereich des Katastrophenrisikomanagements anerkannt, mit einem Schwerpunkt auf Risikominderung, Vorbereitung, Reaktion und Wiederherstellung. Er hat über 300 wissenschaftliche Arbeiten veröffentlicht, die in nationalen und internationalen Zeitschriften und Tagungsbänden erschienen sind, sowie 30 Bücher verfasst. Er hat an mehr als 100 wissenschaftlichen Konferenzen teilgenommen, 10 nationale und internationale Projekte geleitet, über 250 wissenschaftliche Arbeiten begutachtet und zahlreiche Schulungen im Bereich des Katastrophenschutzes und der Rettung organisiert. Er hat zahlreiche nationale und internationale Auszeichnungen und Anerkennungen erhalten, darunter den Danubis Young Scientist Award (2017) vom österreichischen Bundesministerium für Wissenschaft, Forschung und Wirtschaft und dem Institut für den Donauraum und Mitteleuropa für den besten jungen Wissenschaftler aus Serbien; wurde vom internationalen Konsortium und der CIMA Research Foundation als "Lokaler Experte" für Serbien im Bereich des Katastrophenrisikomanagements ausgewählt; erhielt die Auszeichnung für den besten Studenten seines Jahrgangs an der Kriminalistisch-Polizeilichen Akademie (Durchschnittsnote: 10,00); und war einer der besten Kadetten der Sekundarschule für Innere Angelegenheiten, Pane Đukić, 35. Jahrgang. Er schloss sein Studium 2010 als bester Student seines Jahrgangs ab (Durchschnittsnote: 10,00) und verteidigte seine Masterarbeit 2012 an der Akademie für Kriminalistik und Polizeistudien in Belgrad. Er promovierte 2016 an der Fakultät für Sicherheitsstudien der Universität Belgrad, wo er derzeit als außerordentlicher Professor tätig ist. Neben seiner Tätigkeit an der genannten Institution hat er auch an der Kriminalistisch-Polizeilichen Universität und beim Innenministerium der Republik Serbien, Polizeibehörde Kragujevac, gearbeitet. Er beendete seine Sekundarschule für Innere Angelegenheiten (Durchschnittsnote: 5,00) 2006 in Sremska Kamenica als einer der besten Schüler seines Jahrgangs und seine Grundschulbildung an der Grundschule „Sveti Sava“ in Batočina 2002 als Träger des Vuk-Diploms (Durchschnittsnote: 5,00). Er ist Präsident und Gründer der NSDR-URVS, Direktor des Internationalen Instituts für Katastrophenforschung (IDR) und Chefredakteur der internationalen Zeitschrift International Journal of Disaster Risk Management.

Meine Forschung konzentriert sich auf das Katastrophenrisikomanagement mit einem Schwerpunkt auf der Katastrophenvorsorge, Schadensminderung, Reaktion und Wiederherstellung. Zu den Hauptbereichen gehören Such- und Rettungstaktiken, Notfallreaktionssysteme und Sicherheitsmaßnahmen in Katastrophenszenarien. Ich untersuche auch verschiedene Gefahren, sowohl natürliche als auch vom Menschen verursachte, mit einem besonderen Fokus auf das Verständnis und das Management von Risiken im Zusammenhang mit Naturkatastrophen. Weitere Interessengebiete umfassen die öffentliche Wahrnehmung, Resilienz sowie institutionelle Rahmenbedingungen, die die Katastrophenvorsorge und die Vorbereitung von Gemeinschaften verbessern.

Organisationszugehörigkeiten

Lehrstuhl für Thermoprosesstechnik (580)

Montanuniversität Leoben (000)

Leoben
